

OUTDOOR RGB WATERPROOF LASER 110W/80W

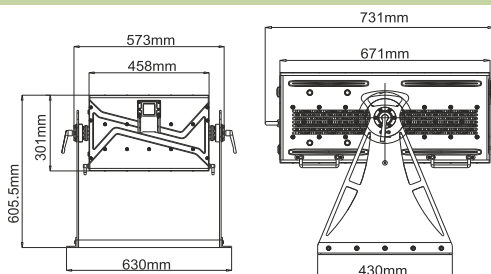

1. IP65 high-power outdoor waterproof laser, integrating laser application technology, American pangolin technology and high-speed galvanometer control technology, presents the laser in the city night sky with brilliant visual effects such as dots, lines, graphics, text, dynamic and color applications, The city and bridges are brightened and rendered just right.
2. National Electrical Product Safety and Quality Supervision and Inspection Center officially inspects qualified products, and the protection level exceeds IP65 standards.
3. Our company's utility model patented products, according to the outdoor lighting characteristics, scientifically designed waterproof and dustproof structure, heat dissipation module, high-end atmospheric appearance, create a high-security performance aerial laser scanning system to protect your outdoor engineering projects convoy.

VORTEX WATERPROOF LASERS (Pro Series)

Model	Description	Configuration
VORTEX - IP 110	110W RGB Outdoor laser	R635-30W/G525-40W/B465-40W
VORTEX - IP 80	80W RGB Outdoor laser	R635-24W/G525-28W/B455-30W

PRODUCT PARAMETERS

- Rated voltage: AC100~240V 50/60Hz
- Power consumption: $\leq 1800W$
- Scanner: 40kpps landmark scanner, scan angle: $\text{Max} \pm 30^\circ$; Input signal: 5V; Linearity distortion $< 2\%$
- Modulation: analog
- Control mode: automatic/master-slave/DMX512 (15CH /ethernet
- Control interface: Waterproof DMX512 interface, waterproof ethernet interface
- Beam diameter and divergence: $11 \times 6.5\text{mm}$; 1.2mrad
- Range: the head can rotating 360°
- IP rate: Ip65 (outdoor)
- Application: cityscape, architectural landmark, laser show, advertising promotion, etc.
- Size: $86.5 \times 66.5 \times 56.5\text{cm}$
- N.W./G.W.: 75kg/110kg

The Head Can Rotating 360°
