

OUTDOOR WATERPROOF LASER 60W/50W/20W

1. The high-power outdoor waterproof laser, IP65 protection grade, is dust-proof and moisture-proof, effectively blocking the salt in the air from causing major damage to electronic devices and optical devices, and better protecting the lamps from long-term use.
2. National Electrical Product Safety and Quality Supervision and Inspection Center officially inspects qualified products, and the protection level exceeds IP65 standards.
3. Our company's utility model patented products, atmospheric high-end appearance design, multi-protection waterproof and dustproof structure, heat dissipation modules that have passed various aging tests, escort your outdoor engineering projects.

The Head Can Rotating 360°

VORTEX WATERPROOF LASERS (Pro Series)

Model	Description	Configuration
VORTEX - IP60	60W RGB outdoor laser	R635-16W/G525-18W/B455-26W
VORTEX - IP50	50W RGB outdoor laser	R635-14W/G525-16W/B465-22W
VORTEX - IPG20	20W Green outdoor laser	G525-20W

PRODUCT PARAMETERS

- Rated voltage: AC100~240V 50/60Hz
- Power consumption: ≤850W
- Scanner: 40kpps landmark scanner
scan angle: Max +30°; Input signal: +5V; Linearity distortion <2%
- Modulation: analog
Beam diameter and divergence: 9*6.5mm; 1.2mrad
- Controlmode: automatic DMX512(15CH) Master-slave ethernet
- Control interface: Waterproof DMX512 interface, waterproof ethernet
IP rate: |P65 (outdoor)
- Range: the head can rotating 360°
- Application: cityscape, architectural landmark, laser show, advertising etc.
- Size: 72*72*70cm
- UN.W./G.W.: 60kg/82kg
